### **DETAILED ACTION**

1. This Office Action is in response to the Board of Patent Appeals and Interferences Decision dated 02/02/2011.

#### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

Claim 5 is allowable because the prior art fails to teach or suggest a method of determining the price of a program, comprising: a subscriber belonging to a subscriber group of a plurality of subscriber groups, the subscriber maintains an independent account with a programming provider, the subscriber may elect to purchase or not purchase a program; determining a first price for a program if the program has been purchased by a threshold number of subscribers belonging to a first subscriber group; and determining a second price, higher than the first price, if the program was not purchased by a threshold number of subscribers belonging to the first group, where the threshold number of subscribers is all the subscribers of the first subscriber group, as recited in the claims.

The closest prior art, Pallakoff (US 6,269,343), discloses varying the cost of a good or service based on the amount of buyers agreeing to purchase the good or service. Pallakoff either singularly or in combination fails to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
